

## CASE26 - Hodos Centre for the Elderly

### Level 1 -

#### - Vocabulary Extraction

- Entrance hall
- Multipurpose room
- Dining area
- Kitchen
- Restrooms
- Storage rooms
- Inner courtyard

#### - Quantity Estimation

- Entrance hall × 1
- Multipurpose room × 1
- Dining area × 1
- Kitchen × 1
- Restrooms × approx. 2
- Storage rooms × approx. 2
- Inner courtyard × 1

#### - Spatial Relationship Descriptions

- The entrance hall connects to both the multipurpose room and dining area, ensuring a smooth circulation flow.
- The kitchen is positioned adjacent to the dining area, supporting efficient service logistics.
- The inner courtyard is centrally located and surrounded by public zones, enhancing natural light and passive ventilation.

#### - Overall Spatial Impression

The ground level emphasizes communal activity and social interaction, with spatial arrangements radiating from a central courtyard to promote openness and connectivity.

## **CASE26 - Hodos Centre for the Elderly**

### **Level 2 -**

#### **- Vocabulary Extraction**

- Residential units
- Corridors
- Common lounge areas
- Balconies

#### **- Quantity Estimation**

- Residential units × approx. 10
- Common lounge areas × approx. 2
- Balconies × approx. 10

#### **- Spatial Relationship Descriptions**

- A central corridor links all residential units and lounge areas, fostering opportunities for resident interaction.
- Each residential unit is equipped with a balcony, ensuring access to outdoor space and views.

#### **- Overall Spatial Impression**

Level 2 is focused on private living spaces with integrated shared zones, balancing personal privacy and communal accessibility with access to daylight and exterior openness.

### **Level 3 -**

#### **- Vocabulary Extraction**

- Residential units
- Corridors
- Common lounge area
- Rooftop garden / terrace

#### **- Quantity Estimation**

## **CASE26 - Hodos Centre for the Elderly**

- Residential units × approx. 5
- Common lounge area × 1
- Rooftop garden / terrace × 1

### **- Spatial Relationship Descriptions**

- A linear corridor connects the units and the shared lounge, which leads to the rooftop garden area.
- The rooftop garden acts as a social and recreational space, providing natural views and enhancing the overall well-being.

### **- Overall Spatial Impression**

The third level continues the living function while integrating a green, open-air environment through a rooftop garden, reinforcing wellness and environmental integration.
