

CASE27 - Elderly Residence Mas Piteu

PROJECT NAME

Elderly Residence Mas Piteu

NUMBER OF LEVELS

5 Levels

(including: Ground Floor, Mezzanine, First Floor, Second Floor, and a separate Historical House)

LEVEL-BY-LEVEL OUTPUT

Level 1 - Ground Floor

Vocabulary Extraction

Main entrance

Reception area

Common areas

Dining hall

Kitchen

Multipurpose room

Restrooms

Quantity Estimation

Main entrance 1

Reception area 1

Common areas approx. 3

Dining hall 1

Kitchen 1

Multipurpose room 1

Restrooms approx. 2

Spatial Relationship Descriptions

The main entrance connects directly to the reception and flows into common and dining areas.

CASE27 - Elderly Residence Mas Piteu

The kitchen is adjacent to the dining hall for efficient service.

Common areas are aligned along circulation paths, encouraging interaction.

Overall Spatial Impression

The ground floor is functionally organized with a clear circulation flow, grouping public and shared spaces to promote accessibility and community gathering.

Level 2 - Mezzanine

Vocabulary Extraction

Administrative offices

Staff rooms

Storage rooms

Quantity Estimation

Administrative offices approx. 2

Staff rooms 1

Storage rooms approx. 2

Spatial Relationship Descriptions

Offices and staff rooms are co-located for internal coordination.

Storage rooms are adjacent to administrative zones for operational convenience.

Overall Spatial Impression

The mezzanine functions as a semi-private service and administration floor, segregated from public and residential areas for operational clarity.

Level 3 - First Floor

Vocabulary Extraction

Residential units

Corridors

Lounge areas

CASE27 - Elderly Residence Mas Piteu

Balconies

Quantity Estimation

Residential units approx. 10

Corridors 1

Lounge areas approx. 2

Balconies approx. 5

Spatial Relationship Descriptions

Units are organized along a central corridor with social lounges at nodes.

Balconies are attached to units for outdoor access.

Overall Spatial Impression

The first floor prioritizes residential comfort and passive social interaction with repeated unit layouts and shared lounge points.

Level 4 - Second Floor

Vocabulary Extraction

Residential units

Corridors

Lounge areas

Balconies

Quantity Estimation

Residential units approx. 10

Corridors 1

Lounge areas approx. 2

Balconies approx. 5

Spatial Relationship Descriptions

Spatial configuration mirrors the first floor with units arranged along a corridor, maintaining hierarchy and

CASE27 - Elderly Residence Mas Piteu

order.

Overall Spatial Impression

The second floor reinforces the continuity of residential design, ensuring consistency in spatial rhythm and accessibility.

Level 5 - Historical House

Vocabulary Extraction

Residential units

Private entrance

Garden area

Quantity Estimation

Residential units 4

Private entrance 1

Garden 1

Spatial Relationship Descriptions

Independent access to units offers enhanced privacy.

Garden surrounds the building, enhancing tranquility and outdoor living.

Overall Spatial Impression

The historical house is thoughtfully adapted into residential use, creating a quiet, self-contained micro-environment that complements the main structure.
