3. Spatial Relationship Descriptions

- The main hall is positioned at the building's front, directly facing the street and serving as the primary access point.
- Multipurpose rooms are located towards the rear, adjacent to an internal courtyard that borders the kindergarten, allowing intergenerational interaction.
- The kitchen and storage room are situated on one side of the entrance and are linked to the terrace for outdoor cooking or BBQ functions.
- Offices, the hairdresser's shop, and public toilets are grouped together on the opposite side of the entrance for efficient service access.
- Circulation spaces connect all functional areas, ensuring logical and accessible movement throughout the layout.

4. Overall Spatial Impression

The design of this single-story facility is driven by clear zoning and flexible usage. Spaces are strategically arranged to support community engagement and elderly comfort, with generous light and ventilation. The adjacency to a kindergarten courtyard fosters social interactivity across age groups, while the material palette (predominantly wood) creates a warm and inviting atmosphere suitable for senior living.
