

Level 1 - Ground Floor

Vocabulary Extraction

- * Public café
- * Divisible meeting room
- * Quiet room
- * Staff offices

Quantity Estimation

- * Café × 1
- * Meeting room × 1 (divisible into smaller sections)
- * Quiet room × 1
- * Staff offices × several (exact count unspecified)

Spatial Relationship Descriptions

- * The café is located near the main entrance, encouraging external interaction.
- * The divisible meeting room is designed for flexibility and is likely centrally positioned.
- * The quiet room is adjacent to or near the meeting and administrative areas.
- * Staff offices are clustered, promoting internal communication and operational efficiency.

Overall Spatial Impression

* The ground floor establishes a publicly accessible, multi-functional base layer combining social, administrative, and contemplative uses to support community integration and staff operations.

Level 2 - First Floor

Vocabulary Extraction

- * Residential units
- * Community kitchen
- * Shared living area

Quantity Estimation

- * Residential units × approx. 12
- * Community kitchen × 1
- * Shared living space × 1

Spatial Relationship Descriptions

- * Residential units are grouped around the shared living area to foster interaction.
- * The community kitchen is oriented toward the south-facing garden and terrace, ensuring sunlight and views.
- * Shared areas are central to encourage spontaneous communal activities.

Overall Spatial Impression

- * This floor emphasizes social cohesion and domestic functionality, with residential units anchored by communal facilities that promote neighborly interaction.

Level 3 - Second Floor

Vocabulary Extraction

- * Residential units
- * Community kitchen
- * Shared living area

Quantity Estimation

- * Residential units × approx. 12
- * Community kitchen × 1
- * Shared living area × 1

Spatial Relationship Descriptions

- * The spatial logic mimics the first floor: residential units orbit around shared spaces.
- * Kitchen and living spaces are proximally placed to facilitate social use.

Overall Spatial Impression

- * Continues the shared living model, balancing autonomy with collective engagement through consistent

layout strategies.

Level 4 - Third Floor

Vocabulary Extraction

- * Residential units
- * Community kitchen
- * Shared living area

Quantity Estimation

- * Residential units × approx. 12
- * Community kitchen × 1
- * Shared living area × 1

Spatial Relationship Descriptions

- * Similar residential clustering around central shared zones.
- * Community kitchen remains adjacent to communal living space.

Overall Spatial Impression

* Reinforces residential typology focused on routine social interaction, aligning with upper floor continuity and rhythm.

Level 5 - Attic

Vocabulary Extraction

- * Administrative office (for national operator)

Quantity Estimation

- * Administrative office × 1

Spatial Relationship Descriptions

- * The office is spatially isolated on the top floor, offering quiet and privacy.
- * Positioned above residential functions, ensuring operational separation.

Overall Spatial Impression

- * A discrete, purpose-specific administrative zone separated from living quarters, enabling focused

oversight without interfering with resident life.
