

CASE41 - St John's House Nursing Home

Level 1 - Ground Floor

① Vocabulary Extraction

- Dining Hall
- Assembly Room
- Chapel
- Courtyard
- Cloister
- Gardens

② Quantity Estimation

- Dining Hall x 1
- Assembly Room x 1
- Chapel x 1
- Courtyard x 1
- Cloister x 1
- Gardens x 2 (North and West sides)

③ Spatial Relationship Descriptions

- A central courtyard is surrounded by the chapel, assembly room, and dining hall, forming a communal and spiritual core.
- A cloister links the old and new wings, enabling sheltered circulation.
- Peripheral gardens integrate the built environment with the existing mature landscape.

④ Overall Spatial Impression

CASE41 - St John's House Nursing Home

The ground floor is designed around shared spiritual and communal functions, using a central courtyard and cloister circulation to establish both connectivity and tranquility.

Level 2 - First Floor

① Vocabulary Extraction

- Bedrooms
- Corridors
- Courtyard

② Quantity Estimation

- Bedrooms x approximately 20
- Corridors x multiple, interconnecting rooms
- Courtyard x 1 (visible from above)

③ Spatial Relationship Descriptions

- Bedrooms are arranged along corridors, which frame the central courtyard and allow visual and daylight access.
- Corridors are linear and spacious, ensuring ease of mobility for elderly residents.

④ Overall Spatial Impression

The first floor emphasizes privacy and comfort, with rooms oriented around a light-filled courtyard and navigable circulation paths.

Level 3 - Roof Level

① Vocabulary Extraction

CASE41 - St John's House Nursing Home

- Terrace
- Roof Garden
- Seating Areas

② Quantity Estimation

- Terrace x 1 (shared use)
- Roof Garden x 1
- Seating Areas x multiple (with benches and shaded elements)

③ Spatial Relationship Descriptions

- An open terrace with integrated gardens and resting spaces forms the primary spatial structure.
- Paved paths guide residents between seating areas, promoting movement and interaction.

④ Overall Spatial Impression

The roof level serves as an outdoor therapeutic space, combining greenery and views with zones for rest and social engagement.
