

CASE47 - Nursing and Retirement Home

Level 1

(1) Vocabulary Extraction

- Entrance hall
- Café
- Conservatory
- Chapel
- Kitchen
- Laundry
- Administration offices
- Storage rooms
- Therapy rooms
- Seminar rooms
- Consultation rooms

(2) Quantity Estimation

- Entrance hall x 1
- Café x 1
- Conservatory x 1 (vertically extending through building height)
- Chapel x 1
- Kitchen x 1
- Laundry x 1
- Administration offices x several
- Storage rooms x multiple
- Therapy rooms x several

- Seminar rooms x several
- Consultation rooms x several

(3) Spatial Relationship Descriptions

- Public and semi-public zones such as the café, conservatory, and chapel are located on the ground level, fostering resident-visitor interaction.
- Service areas like the kitchen, laundry, and offices are positioned toward the rear for operational efficiency.
- The conservatory acts as a vertical spatial core linking floors while introducing natural light.

(4) Overall Spatial Impression

The ground level is designed as a communal base, integrating public amenities and operational functions, unified by a light-filled central conservatory.

Level 2

(1) Vocabulary Extraction

- Single rooms
- Dining areas
- Terraces
- Residential zones

(2) Quantity Estimation

- Residential zones x 2 (each serving 12 residents)
- Single rooms x approx. 24
- Dining areas x 2
- Terraces x 2

(3) Spatial Relationship Descriptions

- Each residential zone forms a self-contained unit including rooms, dining, and outdoor terrace.
- The configuration caters to residents with dementia, ensuring safe, navigable, and familiar layouts.
- Outdoor terraces allow natural retreat and daylight access, supporting resident well-being.

(4) Overall Spatial Impression

This floor functions as a dedicated residential environment, focused on security and homeliness, especially for dementia care, with outdoor access integrated into each unit.

Level 3

(1) Vocabulary Extraction

- Single rooms
- Common area
- Dining area
- Terrace
- Balconies

(2) Quantity Estimation

- Single rooms x approx. 25
- Common area x 1
- Dining area x 1
- South-facing terrace x 1 (~150 m²)
- Balconies x 2 (oriented vertically over the conservatory)

(3) Spatial Relationship Descriptions

- Single rooms are arrayed around central common and dining spaces to foster social contact.
- The large south-facing terrace enhances light and provides a generous outdoor zone.

- Balconies over the conservatory visually and spatially reinforce vertical connectivity.

(4) Overall Spatial Impression

The top floor emphasizes communal interaction and exposure to natural elements, with spacious outdoor access and integrated vertical openness via the conservatory.
