

CASE49 - Monconseil Retirement Home

Level 1

1. Vocabulary Extraction

- Reception area
- Communal living areas
- Dining hall
- Kitchen
- Technical rooms
- Service courtyard
- Alzheimer's unit
- Secured garden

2. Quantity Estimation

- Reception area × 1
- Communal areas × multiple
- Dining hall × 1
- Kitchen × 1
- Technical rooms × several
- Service courtyard × 1
- Alzheimer's unit × 1
- Secured garden × 1

3. Spatial Relationship Descriptions

- Reception area is positioned at the entrance and connects to the communal zones and dining hall.
- Kitchen and technical rooms are located on one side to optimize service flow.

- The Alzheimer's unit includes a dedicated secured garden to ensure privacy and safety.

4. Overall Spatial Impression

The ground floor is designed to support communal interaction and caregiving, with programmatic clarity and fluid circulation between service and social areas.

Level 2

1. Vocabulary Extraction

- Residential units
- Corridors
- Stairwells
- Balconies

2. Quantity Estimation

- Residential units × approximately 27
- Corridors × 2
- Stairwells × 2
- Balconies × 1 per unit

3. Spatial Relationship Descriptions

- Residential units are aligned on both sides of the corridors.
- Circulation is supported by stairwells and elevators placed at key junctions.
- All units have balconies facing the internal garden, encouraging openness and access to daylight.

4. Overall Spatial Impression

This floor prioritizes private living environments arranged for ease of movement and strong visual

connection with shared green space.

Level 3

1. Vocabulary Extraction

- Residential units
- Corridors
- Stairwells
- Balconies

2. Quantity Estimation

- Residential units × approximately 27
- Corridors × 2
- Stairwells × 2
- Balconies × 1 per unit

3. Spatial Relationship Descriptions

- The layout mirrors that of Level 2: units flanking corridors with access to stairwells and vertical cores.
- Every unit includes a balcony overlooking the central garden, maintaining continuity in spatial experience.

4. Overall Spatial Impression

The top floor extends the residential strategy of the second level, fostering a serene and consistent living atmosphere with thoughtful repetition and visual harmony.
