

CASE64 - Zhoushan Chaishan Island Elderly Care Home Analysis

P1 Architectural Drawings

Vocabulary Extraction:

- Courtyard, Corridor, Staircase, Ramp, Living Unit, Multipurpose Hall, Kitchen, Dining Hall, Medical Room, Rooftop Garden, Tea Room, Balcony, Flower Bed, Rest Platform

Quantity Estimation:

- Staircases × approx. 2, Ramp × 1, Living Units × approx. 10, Multipurpose Hall × 1, Kitchen × 1, Dining Hall × 1, Medical Room × 1, Rooftop Garden × 1, Tea Room × 1, Balconies × multiple, Flower Beds × multiple, Rest Platforms × multiple

Spatial Relationship Descriptions:

- Public functions organized around a central courtyard. Ramp connects to rooftop. Linear corridor layout with balconies. Rooftop integrates tea room and gardens.

Overall Spatial Impression:

- A layered vertical-horizontal spatial system fosters interaction, open movement and holistic living for elderly care.

P2 Photographs and Renders

1. Design Vocabulary Extraction:

- Boat-shaped Roof, Cantilever, Large Glazing, Wooden Facade, Perforated Metal Panels, Green Roof, Flower Beds, Outdoor Terraces

2. Atmospheric Description:

- Warm, intimate, daylight-filled spaces. Soft wooden textures and partial enclosures enhance comfort and visual rhythm.

3. Spatial Composition or Hierarchy:

- Courtyard-centered, terraced composition with vertical circulation through ramps/stairs and axial view framing.

CASE64 - Zhoushan Chaishan Island Elderly Care Home Analysis

4. Design Intent Reading:

- Evokes fishing village memory and domestic warmth. Open and accessible layout encourages elderly social interaction.

5. Contextual Relationship:

- Site embraces island hill views and landscape continuity via glass openings and garden layers.

P3 Details/Constructure/Diagram

No diagrams available to process at this time.

LEVEL-Based Output

Building has 2 floors + 1 rooftop garden, verified by source diagrams/texts.

Level 1:

Vocabulary Extraction: Courtyard, Multipurpose Hall, Kitchen, Dining Hall, Medical Room, Corridor, Staircase, Ramp

Quantity Estimation: Multipurpose Hall × 1, Kitchen × 1, Dining Hall × 1, Medical Room × 1, Staircases × approx. 2, Ramp × 1

Spatial Relationship: Functions around courtyard; ramp connects garden; shared corridors.

Impression: Multi-activity public base, flowing around an open central space.

Level 2:

Vocabulary Extraction: Living Unit, Corridor, Staircase, Balcony

Quantity Estimation: Living Units × approx. 10, Staircases × approx. 2, Balconies × multiple

Spatial Relationship: Units along corridors, balconies face outward, stairs connect vertical zones.

Impression: Residential-focused layout emphasizing light, air, and privacy.

Rooftop Garden:

CASE64 - Zhoushan Chaishan Island Elderly Care Home Analysis

Vocabulary Extraction: Tea Room, Flower Beds, Rest Platforms, Roof Deck, Greenery Zone

Quantity Estimation: Tea Room × 1, Flower Beds × multiple, Rest Platforms × multiple

Spatial Relationship: Loop path with social & rest zones, centered on tea room.

Impression: Therapeutic upper layer for leisure and landscape experience.
