

## CASE74 - FRAUENSTEINMATT CARE CENTER

### Building Levels Overview

The architectural drawings and descriptions indicate that the main care center building consists of five levels, including a basement. Each level serves specific functions tailored to the needs of its occupants.

### P1 - Architectural Drawings Analysis

#### Level 1 (Ground Floor)

##### 1. Vocabulary Extraction:

- Main Entrance Hall
- Caf (Cafe Mnibach)
- Kitchen
- Storage Rooms
- Corridors
- Stairwells
- Elevators
- Outdoor Garden

##### 2. Quantity Estimation:

- Main Entrance Hall 1
- Caf 1
- Kitchen 1
- Storage Rooms 2
- Corridors Multiple
- Stairwells 2

- Elevators 2

- Outdoor Garden 1

### 3. Spatial Relationship Descriptions:

- The main entrance hall connects directly to the caf and corridors, facilitating easy access to communal areas.
- The kitchen is adjacent to the caf, ensuring efficient service.
- Corridors link various functional spaces, promoting smooth circulation.
- Stairwells and elevators provide vertical connectivity between floors.
- The outdoor garden is accessible from the interior, offering a seamless indoor-outdoor experience.

### 4. Overall Spatial Impression:

- The ground floor is designed to foster community interaction, with open spaces and direct connections to outdoor areas, creating a welcoming atmosphere.

## P2 - Photographs and Renderings Analysis

### 1. Design Vocabulary Extraction:

- Folded Facade
- Loggias
- Concrete Parapet Strips
- Wood-Metal Windows
- Siberian Larch Handrails
- Natural Stone Flooring
- Elevator Halls

- Corridors
- Stairwells
- Outdoor Gardens

## 2. Atmospheric Description:

- The use of warm materials like wood and stone creates a cozy and inviting atmosphere.
- Natural light floods the interiors through large windows, enhancing the sense of openness.
- The design evokes a homely feel, contrasting with typical institutional aesthetics.
