

OUDE DIJK HOUSING BY SHIFT ARCHITECTURE URBANISM  
 Location: Tilburg, Netherlands  
 Total Floors: 4  
 LEVEL 11. Vocabulary Extraction- Entrance hall (double-height)- Corridor- Communal space- Apartment unit- Courtyard- Garden  
 2. Quantity Estimation- Communal spaces  $\times$  2- Apartment units  $\times$  approximately 9- Courtyards  $\times$  23. Spatial Relationship Descriptions- The double-height entrance hall acts as a spatial hinge, linking the city to the garden.- Corridors serve as longitudinal connectors to the convent and the chapel.- Apartment units are arranged around the courtyards, enhancing communal interaction.  
 4. Overall Spatial ImpressionThe ground floor is organized for transitional flow and community engagement through interconnected social and residential zones surrounding semi-open courtyards.  
 LEVEL 21. Vocabulary Extraction- Corridor- Apartment unit- Window bench (integrated sill seating)  
 2. Quantity Estimation- Apartment units  $\times$  approximately 93. Spatial Relationship Descriptions- Corridors with seating niches invite rest and informal encounters among residents.- Apartments are linearly distributed along the corridor spine.  
 4. Overall Spatial ImpressionThe second floor is socially responsive, using spatial inserts like sill benches to reinforce a domestic and interactive corridor atmosphere.  
 LEVEL 31. Vocabulary Extraction- Corridor- Apartment unit  
 2. Quantity Estimation- Apartment units  $\times$  approximately 93. Spatial Relationship Descriptions- Corridor provides direct access to each unit with emphasis on privacy and efficiency.  
 4. Overall Spatial ImpressionThe third floor maintains the residential rhythm of the lower levels, prioritizing continuity and private access.  
 LEVEL 41. Vocabulary Extraction- Corridor- Apartment unit  
 2. Quantity Estimation- Apartment units  $\times$  approximately 93. Spatial Relationship Descriptions- Units benefit from elevated views and daylight; the corridor ensures streamlined circulation.  
 4. Overall Spatial ImpressionThe top floor is light-oriented and optimized for panoramic views, reflecting a spatial culmination of the floor stack.  
 P2 Photographs or Renders (Design Vocabulary Interpretation)  
 1. Design Vocabulary Extraction- Brick facade- Courtyard- Garden- Window sill benches  
 2. Atmospheric DescriptionWarm, traditional atmosphere with tactile materiality; use of brick evokes heritage while soft landscaping and benches enhance human scale and comfort.  
 3. Spatial Composition or HierarchyThe courtyard-centric layout fosters inward community dynamics; rhythm is defined by repeated openings and vertical articulation of the facade.  
 4. Design Intent ReadingThe

design communicates an architectural gesture of inclusion and serenity, suited for elderly residents, referencing monastic typologies with modern social provisions.P3 Detail/Construction/DiagramNo diagrams or detail drawings were provided in the case documentation; this section is omitted accordingly.
