

CASE 9 - Toranoko Nursery / Takashige Yamashita Office

Number of Levels: 1

Level 1

1. Vocabulary Extraction

- Entrance
- Lounge
- Nursery rooms
- Lunchroom
- Office
- Storage rooms
- Toilets
- Corridor
- Garden
- Curved roof
- Multipurpose open area
- Windows (large openings)

2. Quantity Estimation

- Entrance 1
- Lounge 1
- Nursery rooms 3 (as labeled and zoned)
- Lunchroom 1
- Office 1
- Storage rooms 2

- Toilets 2
- Corridor 1 (central circulation)
- Garden 1 (shared outdoor courtyard)
- Curved roofs multiple (continuous surfaces)

3. Spatial Relationship Descriptions

- Nursery rooms are arranged adjacent to each other along a central corridor, facilitating shared circulation and supervision.
- The lunchroom, lounge, and office are clustered on one end, possibly forming a staff-adult zone distinct from childrens program spaces.
- Storage and toilets are distributed at both ends of the layout for accessibility.
- The garden serves as a soft, interactive buffer between interior zones and the exterior.
- All internal spaces have visual or direct physical access to the garden via large openings.
- The continuous curved roof covers the whole plan, visually unifying various spaces and enhancing openness.

4. Overall Spatial Impression

The ground floor is designed with an open and communal logic, where all key functions are arrayed around a central corridor and share access to the garden. The architecture encourages visual continuity, interaction, and flexibility, while the undulating roof structure adds spatial richness and identity.
